

## **SECTION FIVE**

### **Approved Plants, Bushes, and Trees**

## Approved Plantings for The Greens of Prestwick

The association will replace dead shrubs in the common area from the list below at the association's cost. Owners may request which type of plant may replace the dead shrub from this list. Owners wishing to replace healthy shrubs in the common area may replace them from the list below and the replacement cost will be that of the unit owner. In either case the association would expect the owner to water the new plant until it is sufficiently rooted in the new location. Prior board approval is needed before the new plant can be installed. Additionally, the unit owners will need to contract with Edward Harp to provide and install the plants. The board has negotiated pricing with Edward Harp and there will be a warranty for any plant he may install.

Compact Burning Bush

Gold Standard

Herbert

Green Velvet Boxwood

Pyramidal

Little Quick-Fire  
Hydrangea

Giant Flowering  
Hibiscus

Gold Thread False

Dwarf Korean
